Schedule of benefits

This schedule of benefits lists the **deductibles** and **copayments/payment percentage**, if any, that apply to the services you receive under this plan. You should review this schedule to become familiar with your **deductibles** and **copayments/payment percentage** and any limits that apply to the services.

How to read your schedule of benefits

- When we say:
 - "In-network coverage", we mean you get care from **network providers**.
- The **deductibles** and **copayments/payment percentage** listed in the schedule of benefits below reflect the **deductibles** and **copayment/payment percentage** amounts under your plan.
- Any payment percentage listed in the schedule of benefits reflects the plan payment percentage. This is the amount the Plan pays. You are responsible to pay any deductibles, copayments, and the remaining payment percentage.
- You are responsible for full payment of any health care services you receive that are not a **covered** benefit.
- This plan has maximums for specific **covered benefits**. For example, these could be visit, day or dollar maximums.
- At the end of this schedule you will find detailed explanations about your:
 - Deductible
 - Maximum out-of-pocket limits

Important note:

All **covered benefits** are subject to the Calendar Year **deductible** and **copayment/payment percentage** unless otherwise noted in the schedule of benefits below.

We are here to answer any questions. Contact Member Services by logging onto your Aetna secure member website at www.aetna.com or at the toll-free number on your ID card.

General coverage provisions

This section provides detailed explanations about the:

- Deductible
- Maximum out-of-pocket limits

that are listed in the first part of this schedule of benefits.

Deductible provisions

The **deductible** may not apply to certain **eligible health services**. You must pay any applicable **copayments/payment percentage** for **eligible health services** to which the **deductible** does not apply.

Individual

This is the amount you owe for in-network **eligible health services** each Calendar Year before the plan begins to pay for **eligible health services**. This Calendar Year **deductible** applies separately to you and each of your covered dependents. After the amount you pay for **eligible health services** reaches the Calendar Year **deductible**, this plan will begin to pay for **eligible health services** for the rest of the Calendar Year.

Family

This is the amount you and your covered dependents owe for in-network **eligible health services** each Calendar Year before the plan begins to pay for **eligible health services**. After the amount you and your covered dependents pay for **eligible health services** reach this family Calendar Year **deductible**, this plan will begin to pay for **eligible health services** that you and your covered dependents incur for the rest of the Calendar Year.

To satisfy this family **deductible** limit for the rest of the Calendar Year, the following must happen:

• The combined **eligible health services** that you and each of your covered dependents incur towards the individual Calendar Year **deductibles** must reach this family **deductible** limit in a Calendar Year.

When this occurs in a Calendar Year, the individual Calendar Year **deductibles** for you and your covered dependents will be considered to be met for the rest of the Calendar Year.

Copayments

Copayment

As it applies to in-network coverage, this is a specified dollar amount or percentage that must be paid by you at the time you receive **eligible health services** from a **network provider**.

Per Admission Copayment

A per admission **copayment** is an amount you are required to pay when you or a covered dependent have a **stay** in an inpatient facility.

Separate **copayments** may apply per facility. These **copayments** are in addition to any other **copayments** applicable under this plan. They may apply to each **stay** or they may apply on a per day basis up to a per admission maximum amount.

The per admission **copayment** amount is equal to a facility's **semi-private room rate** for one day. However, for the **stay** of a well newborn baby (starting at birth), the per admission **copayment** amount will not exceed the **hospital**'s actual **room and board** charge on the first day of the **stay**.

Payment percentage

The specific percentage the plan pays for a health care service listed in the schedule of benefits.

Maximum out-of-pocket limits provisions

Eligible health services that are subject to the maximum out-of-pocket limit include prescription drug eligible health services provided under the medical plan outpatient prescription drug plan.

The maximum out-of-pocket limit is the maximum amount you are responsible to pay for copayments/payment percentage and deductibles for eligible health services during the Calendar Year. This plan has an individual and family maximum out-of-pocket limit. As to the individual maximum out-of-pocket limit each of you must meet your maximum out-of-pocket limit separately.

Individual

Once the amount of the **copayments/payment percentage** and **deductibles** you and your covered dependents have paid for **eligible health services** during the Calendar Year meets the individual **maximum out-of-pocket limit**, this plan will pay 100% of the **negotiated charge** for **covered benefits** that apply toward the limit for the rest of the Calendar Year for that person.

Family

Once the amount of the **copayments/payment percentage** and **deductibles** you and your covered dependents have paid for **eligible health services** during the Calendar Year meets this family **maximum out-of-pocket limit**, this plan will pay 100% of the **negotiated charge** for such **covered benefits** that apply toward the limit for the remainder of the Calendar Year for all covered family members.

To satisfy this family **maximum out-of-pocket limit** for the rest of the Calendar Year, the following must happen:

 The family maximum out-of-pocket limit is a cumulative maximum out-of-pocket limit for all family members. The family maximum out-of-pocket limit can be met by a combination of family members with no single individual within the family contributing more than the individual maximum out-ofpocket limit amount in a Calendar Year.

^{*}See How to read your schedule of benefits at the beginning of this schedule of benefits

The maximum out-of-pocket limit may not apply to certain eligible health services. If the maximum out-of-pocket limit does not apply to a covered benefit, your copayment/payment percentage for that covered benefit will not count toward satisfying the maximum out-of-pocket limit amount.

Certain costs that you incur do not apply toward the **maximum out-of-pocket limit**. These include:

- All costs for non-covered services
- All costs for non-emergency use of the emergency room
- All costs incurred for non-urgent use of an urgent care provider
- Any out of pocket costs for outpatient prescription drugs

Calculations; determination of benefits provisions

Your financial responsibility for the costs of services will be calculated on the basis of when the service or supply is provided, not when payment is made. Benefits will be pro-rated to account for treatment or portions of stays that occur in more than one Calendar Year. Determinations regarding when benefits are covered are subject to the terms and conditions of the booklet.
