

Hospital Indemnity Insurance

Coverage to help offset hospitalization expenses that may not be covered under your medical plan.

What is hospital indemnity insurance?

Hospital indemnity insurance works to complement your medical coverage — and pays in addition to what your medical plan may or may not cover. It's coverage that can help safeguard your finances for life's unexpected events by providing you with a lump-sum payment (one convenient payment all at once) when your family needs it most. The payment you receive is yours to spend however you like. It typically pays, as long as the policy and certificate requirements are met, a flat amount upon your hospital admission and a daily amount paid from each day of your stay (confined to the hospital).¹ It also provides payment if you're admitted to or have to stay in an Intensive Care Unit (ICU), as well as other added benefits and services too.²

Q. How does the payment work?

A. We make payments directly to you.

The amount you receive will be on top of any other insurance you might have and you can spend it however you like. You might use it to help pay for medical plan deductibles and copays, for out-of-network care, or even for your family's everyday living expenses. Whatever you need while recovering from an illness or

accident, hospital indemnity insurance is there to make life a little easier.

Q. Am I eligible to enroll for this coverage?

A. Yes, you can enroll both yourself and eligible family members. All you need to do is enroll during the open enrollment period and be actively at work. Some states require the insured to have medical coverage, and dependents may be subject to medical restrictions as outlined in the Certificate.

Q. I have a good medical plan at work, so why do I need hospital indemnity insurance?

A. Hospital stays can be pricey, and often unexpected. Even the best medical plans can leave you with extra expenses to pay or services that just aren't covered. Things like plan deductibles, copays, extra costs for out-of-network care, or non-covered services. Many people aren't prepared to handle these extra costs, so having this extra financial support when the time comes may mean less worry for you and your family.

Hospital indemnity insurance is designed to be an economical way for you to supplement your health care plan.
