Affordability starts here.

Our product has two cost-effective dental plans to choose from. These plans give you the freedom to offer a benefit package that best manages health care costs. Both come with easy-to-understand copays, so your employees know what each dental service costs ahead of time.

Access that goes further.

These plans offer access to a large network with deep discounts — giving your employees more choice in seeing the dentist they want. Plus, there are no referrals — making it easier to get second opinions.
