

If you have selected the CDHP Medical option, you have the opportunity to open an HSA account at Education Credit Union. As long as you contribute a minimum of \$20 per month, AISD contributes \$20 per month as well. AISD's contribution will give you \$240 extra per year towards healthcare costs and the money stays in the account until you spend it, it carries over every year. Please visit any Education Credit Union branch once your benefits are active to get your HSA account activated and your HSA debit card to use towards medical, dental and vision costs for you and your spouse or eligible dependents.
