

## Help Protect What Matters Most to Your Loved Ones

## **Get the Additional Life Insurance Coverage You Need**

As your life changes, so do your financial needs. That's why it's important to evaluate your financial situation at least once a year, especially when it comes to the amount of life insurance you have.

A life insurance policy provides a benefit amount that ensures your loved ones will be able to maintain their current lifestyle in their time of need. The funds they receive can help pay the mortgage or rent, pay off debt and other bills, send your children to college and more. Life insurance is truly coverage that helps protect what matters most.

## Take Advantage of This Annual Increase Opportunity

We make it easy to get additional life insurance coverage. Enroll for additional coverage at your next enrollment period up to the guaranteed issue amount (you're eligible even if you currently have the minimum amount of coverage). This allows you to secure additional life insurance protection if your needs change (e.g., marriage, birth of a child, purchase of a new home, etc.).

## No Health Questions to Answer

You may increase your current benefit amount by 10,000, not to exceed the guaranteed issue amount of 150,000, without answering any health questions.

A portion of your life insurance benefit may be available to you to help with living expenses if you're diagnosed with a terminal illness.

You may continue your coverage without proving good health if your eligibility ends.

The life insurance increase offer is not available for your spouse and/or dependents.
