# ACCIDENT INSURANCE

## Benefit Summary

### What is Accident Insurance?

This coverage pays benefits for injuries, such as cuts, broken bones, concussions and related expenses. It can be used to help protect you and your family from the financial challenges that can come from an accident.

### Use your benefits any way you like.

Benefit proceeds can be used however you want, whether it's toward your mortgage, medical bills or student loans. It's up to you.

### Who can be covered?

The coverage offered by your Employer allows you to cover yourself, and your spouse and children. Note that you may only cover other family members if you are insured by this coverage yourself.

### 325,000 kids

are treated for sports- and recreation-related concussions each year.<sup>1</sup>

### Unintentional falls

are the leading cause of nonfatal injuries treated in the emergency room for adults 25+ years old.<sup>1</sup>

### \$16,133

Average cost of a fractured hip.<sup>2</sup>

# What's the difference between health insurance & Accident Insurance?

**Health insurance** covers certain medical expenses and pays your provider directly but may leave you responsible for some out-of-pocket costs. The amount paid depends on your coverage, the type of care and whether you've hit your out-of-pocket maximum.

**Accident Insurance** is supplemental coverage that can complement your health insurance and help cover your out-of-pocket expenses. The benefit amount you receive is based on the covered accident, is paid to you directly and can be used however you like.

Let's say you carry both health insurance and Accident Insurance, and you go to the ER with a broken leg. Your health insurance will pay the treating providers for some or all your medical expenses. Your Accident Insurance will pay you directly for your broken leg and any applicable treatments, such as an ambulance ride. The money you receive from your Accident Insurance can be used any way you choose. You could put it toward uncovered medical expenses, like co-pays, or you could use it to cover your rent or daycare expenses.

## Coverage highlights:

- No health questions asked
- Affordable premiums
- Simplified claims-filing with dedicated support
- If you leave your Employer, you may be able to take your coverage with you at the same rate

**23%** of adults had to pay a **major unexpected out-of-pocket medical expense** in the prior year.<sup>3</sup>

**44%** of adults say they either **could not cover a \$400 emergency expense,** or would cover it by selling or borrowing money.<sup>3</sup>

## How does it work?

When you carry Accident coverage and have a covered accident, you're paid a total cash benefit that is based on the amount listed for each covered benefit and/or treatment. Check your benefit schedule for more details around the covered accidents and treatments.

**Choose to enroll**  
in Accident coverage  
through your Employer.

**File an Accident claim**  
for a qualifying accident event  
**online, over the phone or via  
US mail or fax .**

**Benefits are paid**  
**directly to you** based on the  
injury and treatments.

### BENEFIT SNAPSHOT:CHRIS'S HOME RUN

One night while playing a game in his local baseball league, Chris made a run for home that left him with a broken leg and a concussion. Fortunately, he'd enrolled in Accident Insurance through his Employer. The benefit he received helped to offset his medical bills, and cover other expenses and time away from work, while he recovered.

**Chris's Accident policy paid these benefits:**

Emergency room treatment:	\$100
Fracture (thigh, non-surgical):	\$2,500
