

# 457(b) Retirement Plan Services

Retirement administration solutions for public employers

A 457(b) is a voluntary retirement savings plan designed for employees of state and local governments, as well as many tax-exempt organizations. Providing a 457(b) savings plan can help bring financial stability and security for life upon retirement for those who participate. With this plan, your employees can lower their current taxes, earn tax-free income, reduce their retirement income gap, and get on track for living a comfortable life after retirement.

Working with our 457(b) program can allow you to spend less time on plan administration and investment planning, and more time overseeing your organization. And with a success plan in place, you are in a better position to attract and retain valuable staff members.

## Why Choose Us?

- ✓ We specialize in working with government employers
- ✓ We act as fiduciaries with a legal duty to act in our clients' best interest
- ✓ We focus on making financial education inclusive for all employees regardless of where they are in their financial journey

### Benefits for Employers

All investments are subject to risk, including loss of principal. Risk is defined as fluctuation in returns from one period to the next and the potential for loss. A well diversified portfolio may help investors reduce the risk associated with investing. However, diversification does not insure protection against a loss in a declining market. This report has been prepared for the purpose of providing a comparison among the advisors and indices shown herein. Indices are for comparison only. The inclusion of an advisor in this report should not be considered an endorsement or recommendation.
