

Employee Emails Provide Access to our Digital Experience

We're revolutionizing employee benefits with a friction-free, digitally native experience. To unlock the best of what we offer, **an email address must be provided** when the employee is electing Pacific Life coverage.

Step 1: The employee enrolls in Pacific Life benefits and includes their email. The employee's email address is needed for the following reasons:

- Completing EOI process if applicable (spouse email required as applicable)
- Receiving their Employee Portal email invitation link
- Communication with Pacific Life is 100% paperless

Step 2: Once the employee's enrollment information is received by Pacific Life, the employee will be sent an email invitation link to activate their portal account.

Step 3: After they activate their account, the employee will be able to access the Pacific Life Employee Portal and take advantage of the many features it offers, including:

- Easily obtain Dental and Vision Digital ID cards
- Access all coverage details and features
- Find in-network providers
- View, initiate, and manage claims across the entire product suite
- Cost Estimators
- Useful resources to understand your benefits
- Valuable wellness information
