

VERUSPATH

Attention: Members Taking a Brand-Name Medication!

VerusPath would like to inform you of an additional benefit added to your pharmacy plan. VerusPath is excited to bring you cost-saving opportunities on your **brand-name** medications through **CANPath**, our Canadian Pharmacy Program!

Just a few of the benefits to using the CANPath Program are:

90-Day
Supplies

Shipped
Directly
to You

\$0.00 Copayment

On hundreds of
medications,
such as:

- Ozempic
- Jardiance
- Trulicity
- Farxiga
- Tresiba
- And Many More!

If you are taking a brand-name medication that is eligible for the program, you will be contacted by phone and/or email by a VerusPath Patient Advocate. We will work directly with your provider to have a new prescription sent to our Pharmacy Partner.

Please note that generic medications are not applicable for this cost-saving opportunity.

If you have questions about the **CANPath Program**, please call **855-623-4316** or email **VerusPath@Verus-Rx.com**

Our Patient Advocates are available **Monday through Friday**, from **8:00AM** until **6:00PM CST**.

While many medications are available through CanPath, not all dosages or strengths are covered in this program. For example, Ozempic 1mg is available, but Ozempic 2mg is not. **This is one example and may not reflect all situations.**

In the event your prescription is unavailable, then your medication will be dispensed through the regular pharmacy benefit.

The list of medications available through CanPath is updated regularly and subject to change.
